Steven M. Neuhaus
County Executive

Eli N. Avila, MD, JD, MPH, FCLM
Commissioner of Health

September 26, 2016

To Whom it May Concern:

New York State Department of Health, Division of Chronic Disease Prevention, and Division of Nutrition presented the opportunity of applying for grant funding under the Creating Healthy Schools and Communities. The purpose of this grant is aimed at preventing obesity in New York State by funding a coordinated multi-sector effort to increase demands for and access to healthy food and opportunities for physical activity to reduce the risk of obesity in high-need communities and school districts. Orange County Department of Health made an application for funds in hopes of bringing this program to Port Jervis and the Port Jervis City School District.

In December 2014, a Creating Healthy Schools and Communities Memorandum of Understanding was reviewed and signed by Mr. Thomas Bongiovi in representation of the Port Jervis City School District. In September 2015, Orange County Department of Health was awarded a 5-year contract (10/1/2015-9/30/2020) to complete the goals and objectives of the grant within the city of Port Jervis, which will focus on using policy system and environmental changes to transform health of the community.

Within this grant opportunity, the Orange County Department of Health wishes to purchase and award the following pieces of equipment to Port Jervis City School District:

Outdoor Fitness Circuit ("Fitness Kit A") containing a horizontal chin up station, upright cycle machine, lateral pull down machine, and leg press machine) for Port Jervis High School
Weight Room Circuit containing leg extension/leg curl machine, chest press/shoulder press machine, lateral pulldown/seated row machine, pectoral/rear deltoid machine, and seated leg press machine for the Port Jervis Middle School.

These purchases will help implement the objectives of Creating Healthy Schools and Communities by providing more opportunities for physical activity and therefore working towards reducing childhood obesity in Orange County.

Sincerely,

Lauren Carroll
Public Health Educator
